Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 10 July 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 thru 3, 6, 7, and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Kameyama 4,472,240. Kameyama discloses (see, for example, FIG. 12H) a semiconductor device comprising a semiconductor layer (semiconductor substrate) 601, and an element isolation region (element isolation trench) 611. The width of the element isolation trench at the upper end is larger than the trench width at the bottom surface. The side surface is larger than a straight line connecting said upper end and said end of said bottom surface. The first side surface is perpendicular to the main surface of the semiconductor layer. The second side surface is perpendicular to said main surface of the semiconductor layer. A gradually tapered side surface (third side surface) connects said first side surface and said second side surface with each other.

3. Claims 1 thru 3, 6, 7, and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Tsang et al. 5,358,891. Tsang discloses (see, for example, Figure 3f) a semiconductor device comprising a semiconductor substrate 302, and an isolation structure (element isolation trench) 324. The width of the isolation structure at the upper end is larger than the trench width at the bottom surface. The side surface is larger than a straight line connecting said upper end and said end of said bottom surface. The first side surface is up and substantially perpendicular to the

main surface of the semiconductor layer. The second side surface is down and substantially perpendicular to said main surface of the semiconductor layer. A gradually tapered side surface (third side surface) connects said first side surface and said second side surface with each other.

Response to Arguments

4. Applicant's arguments with respect to claims 1-3, 6, 7, and 18 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
